

Journey Comparison: Digital vs. Branch-Assisted

SYNTHETIC — demo only

Comparing `existing-journeys/deposit-digital.json` (14 steps) and `existing-journeys/deposit-branch.json` (17 steps). 12 steps are the exact same module reused as-is. 2 steps are digital-only. 5 steps are branch-only. 3 of the shared steps carry a rule difference even though the step itself is the same module.

Step	Digital	Branch	Category	Note
FA login	—	✓	Branch-only	No digital equivalent — establishes which banker and client the session is for before anything else starts.
Overview	✓	✓	Shared	None.
Phone number	✓	✓	Shared	None.
Verify code (OTP)	✓	✓	Shared	None.
Profile setup	✓	✓	Shared	None.
Verify identity (intro)	✓	—	Digital-only	Not a variant — branch doesn't use this splash screen at all. Replaced entirely by the remote hand-off below.
Identity verification (form)	✓	—	Digital-only	Same reasoning — branch never reaches this page.
Verify identity (remote, FA view)	—	✓	Branch-only	The customer must complete ID-V on their own device — this screen sends a link and polls for completion.
Identity verified (remote)	—	✓	Branch-only	Animated confirmation once the customer finishes on their own device; auto-advances.
Address info	✓	✓	Shared	None.
Employment info	✓	✓	Shared	None.
Credit card offer (<i>cond.</i>)	✓	✓	Shared	None — same eligibility rule, same gating, both channels.
Card added (<i>cond.</i>)	✓	✓	Shared	None — same animation, same trigger, both channels.

Tax questions	✓	✓	Shared	None.
Account agreements	✓	✓	Shared, rule differs	Same accordion + checkboxes on both. Branch follows with two e-signatures — checkboxes alone aren't sufficient there.
Client e-signature	—	✓	Branch-only	No digital equivalent — digital's consent is the account-agreement checkboxes alone.
FA e-signature	—	✓	Branch-only	No digital equivalent — no banker present on digital.
Fund account	✓	✓	Shared, rule differs	Digital: transfer, e-Transfer, or cheque. Branch: transfer, cash, or cheque — no e-Transfer.
Confirmation	✓	✓	Shared, rule differs	Branch additionally names the assisting FA and shows a QR code + infotip for online banking setup.

Summary

- **Shared, no rule difference (9):** Overview, Phone number, Verify code, Profile setup, Address info, Employment info, Credit card offer, Card added, Tax questions.
- **Shared, rule differs (3):** Account agreements, Fund account, Confirmation.
- **Digital-only (2):** Verify identity (intro), Identity verification (form).
- **Branch-only (5):** FA login, Verify identity (remote, FA view), Identity verified (remote), Client e-signature, FA e-signature.

New since the last version of this comparison: the "digital-only" category didn't exist before — identity verification used to be reused as-is on both channels. It no longer is: branch replaced it with an entirely different, cross-device mechanism rather than a channel-aware variant of the same page.
